DETAILED ACTION

Allowable Subject Matter

Claims 2-20 are allowed.

The following is an examiner's statement of reasons for allowance: prior art does not teach nor render obvious an equalizer having in combination with other limitations, the gain control performs decision and sampling control of the output signal; and the gain control integrates an output signal from the decision and sampling control using an integrator; neither does it have a variable gain amplifier, an integrator, and a peak detector; and wherein the output signal is passed through the peak detector and the integrator to provide a control signal for the variable gain amplifier; nor does it have the gain control unit comprising a gain control process feedback loop that forces the input signal to a predetermined value within a bit period after detecting a pulse rising edge nor does it have the method having the steps of waiting a first predetermined period of time after detecting the pulse rising edge before sampling a first sample of the input signal, waiting a second predetermined period of time after detecting the pulse rising edge before sampling a second sample of the input signal.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
